# BARF Oil

WINNER PLUS BARF Oil is a natural hemp oil being obtained at low temperatures followed by mechanical filtration. Hemp oil supplies vital (essential) fatty acids for the whole metabolism and for a healthy skin. The gamma - linolenic acid plays an important role in the metabolism of the dog's body. Hemp oil is particularly rich in poly unsaturated fatty acids (76%) that the dog is not able to produce by itself. The mild nutty, slightly hay like taste of WINNER PLUS BARF Oil makes it very much accepted by dogs.

**Composition:** Hempoil (all-natural, cold-pressed).

**Ingredients (per 1 kg):** Fat 100%; saturated fatty acids 11% mono unsaturated fatty acids 13%; polyunsaturated fatty acids 76% (of which 3% are Gamma-Linolenicacid).

**Energy value per 100 g:** 900 kcal / 3,700 kj

**Recommended Use:** Serve WINNER PLUS BARF Oil mixed with the feed. Shake before use! Always close the bottle after use and store protected from light. Offer WINNER PLUS BARF Mix evenly mixed with the food.

**Available formats:** 250ml
